

INFORMATION ON TREATMENT FOR PELVIC FLOOR DYSFUNCTION AND BLADDER / BOWEL PROBLEMS

IMPORTANT – READ IMMEDIATELY

Your first appointment will take 45 to 90 minutes so plan your time appropriately. Please arrive at least 15 minutes early to complete necessary paperwork.

Your appointment is scheduled for _____ a.m. /p.m. on _____.

Enclosed please find:

1. HISTORY AND SCREENING QUESTIONNAIRES

All forms must be completed prior to your first appointment.

- Incomplete information may delay insurance processing and authorization for subsequent treatment.
- Prior to your first appointment we recommend you check with your insurance company regarding coverage for treatment.

The office evaluation/treatment of your condition may include:

- Review of your history
- Measurement of your pelvic floor muscle function with biofeedback equipment. These instruments record your muscle activity and help evaluate and treat your pelvic floor muscles.
- Musculoskeletal and pelvic floor muscle exam.
- Exercise instruction for pelvic floor and other muscle groups as indicated.

Return visits for therapy will be scheduled at regular intervals to measure your progress and modify your exercise program as needed. These appointments are important in order to progress your treatment program.

Please feel free to invite someone to accompany you to your appointments if doing so will make you feel more comfortable.

If you have any questions, please telephone 916-355-8500.

INFORMED CONSENT FOR TREATMENT

The term “informed consent” means that the potential risks, benefits, and alternatives of therapy evaluation and treatment have been explained to you. The therapist provides a wide range of services and I understand that I will receive information at the initial visit concerning the evaluation, treatment and options available for my condition.

I also acknowledge and understand that I have been referred for evaluation and treatment of pelvic floor dysfunction. Pelvic floor dysfunctions include, but are not limited to, urinary or fecal incontinence, difficulty with bowel, bladder or sexual functions, painful scars after surgery, persistent sacroiliac or low back pain, or pelvic pain conditions.

I understand that to evaluate my condition it may be necessary, initially and periodically, to have my therapist perform an internal pelvic floor muscle examination. This examination is performed by observing and/or palpating the perineal region including the vagina and/or rectum. This evaluation will assess skin condition, reflexes, muscle tone, length, strength and endurance, scar mobility and function of the pelvic floor region. Such evaluation may include vaginal or rectal sensors for muscle biofeedback.

Treatment may include, but not be limited to the following: observation, palpation, vaginal or rectal sensors for biofeedback and/or electrical stimulation, ultrasound, heat, cold, stretching and strengthening exercises, soft tissue and/or joint mobilization and educational instruction.

Potential risks: I may experience an increase in my current level of pain or discomfort, or an aggravation of my existing injury. This discomfort is usually temporary; if it does not subside in 1-3 days, I agree to contact my therapist.

Potential benefits: may include an improvement in my symptoms and an increase in my ability to perform my daily activities. I may experience increased strength, awareness, flexibility and endurance in my movements. I may experience decreased pain and discomfort. I should gain a greater knowledge about managing my condition and the resources available to me.

Alternatives: If I do not wish to participate in the therapy program, I will discuss my medical, surgical or pharmacological alternatives with my physician or primary care provider.

Release of medical records: I authorize the release of my medical records to my physicians/primary care provider and/or insurance company.

Cooperation with treatment: I understand that in order for therapy to be effective, I must come as scheduled unless there are unusual circumstances that prevent me from attending therapy. I agree to cooperate with and carry out the home program assigned to me. If I have difficulty with any part of my treatment program, I will discuss it with my therapist.

No warranty: I understand that the physical therapist cannot make any promises or guarantees regarding a cure for or improvement in my condition. I understand that my therapist will share with me her opinions regarding potential results of physical therapy treatment for my condition and will discuss all treatment options with me before I consent to treatment.

I have informed my therapist of any condition that would limit my ability to have an evaluation or to be treated. I hereby request and consent to the evaluation and treatment to be provided by the therapist of Folsom Physical Therapy.

PLAN OF CARE AGREEMENT

My diagnosis, evaluation findings including the treatment program, the expected benefits or goals of treatment, and reasonable alternatives to the recommended treatment program, has all been explained to me. My questions about my care have been answered to my understanding and satisfaction.

I consent to the recommended course of treatment.

For optimum care and progress:

- It is important to keep your regularly scheduled therapy appointment. At those visits we can advance your exercise routine.
- Please avoid practicing your pelvic floor exercises just before your next appointment time.
- Bring your exercise sheets, voiding log and biofeedback internal sensors as appropriate to each office visit.
